	x	2004	Now	VENICE	FL	USA	Venice Beach		

In 2004, Piazza Inc sold 3 rolls of A2X 6.9' x 82' to Sarasota County Parks Dept. In September the 9th, one of their beach cities, Venice, had a special event on their beach with one of their city officials presiding. He used a battery operated wheelchair for his mobility. The A2X Mobi Mat was put out on the beach in the morning and taken up before sunset as it was still in turtle nesting season and cannot leave it overnight. This event was covered on T.V. and a reporter from the Herald Tribune that has done 2 other articles on Mobi Mat was there with camera.

The event was to commemorate the sand replenishment efforts having just been completed.
