	x	2 Dec 2003	Now	MARTIN COUNTY	FL	USA	Hobe Sound Beach		

*Reported by Robert Steiner, Martin County Accessibility Coordinator (Sept 29<sup>th</sup> 2004):*

“Good morning Mr Ragon  
We have used the mobi-mat with our logo since Dec. 2003 with great success. The logo appears much the same as when new and there is no low at this time regarding the logo on the mat since it is a County beach facility. Unfortunately, we recently had to remove the mat from Hobe Sound beach due to 2 hurricane events within a 3 week period.”

*(Jan 28<sup>th</sup> 2004):*

“We placed the surface at the Hobe Sound public beach on December 2nd, approximately 40ft in length, and so far so good! We leave it down 24/7 and have not had any vandals to this date. I’m holding my breath that DEP or other Agencies don’t bother us with their rules either. The logo seems to be holding out ok as is the rest of the surface. We will probably install the other 40ft piece at Stuart Beach on Hutchinson Island if all continues to go well at Hobe Sound. The Lifeguards tell me that we are getting some mobility devise users on the surface and we are getting the word out to the public via local TV and word of mouth. Please forward any new information pertaining to the mat such as other user experiences, etc.

Thanks- Bob Steiner
